

CHIN I
ELECTRICAL CO.,LTD. 錦德電機有限公司

錦德電機有限公司於1986年7月正式在台北新莊成立

錦德是專門為自動化機械、CNC工具機、高低壓輸配電線、電子生產客戶等，設計生產、提供製造各類型變壓器、電抗器、穩壓器等。控制電壓製品。我們服務團隊包括台灣台北、越南胡志明市兩地擁有最精密生產設備及工作團隊。包括多年電機經驗與專業技術，提供最優良的電壓製品及設計。錦德團隊不斷研發創新多元化有關電源的產品，堅持嚴格品質生產，符合多國的安全規範，就能滿足客戶的嚴格需求，但受國際肯定的變壓器廠家。

The CHIN I Electrical Co., Ltd. was established in Xinzhuang City of Taipei County in February 1986. The Company specializes in the design and production of automatic machinery, CNC tooling machines, HV (High Voltage) & LV (Low Voltage) switch gear, as well as voltage control products, such as various type of transformers, reactors and stabilizers, for electronics clients. Our service teams are located in Taipei County (Taiwan) and Ho Chi Minh City (Vietnam) with the best precision equipment and workforce for high quality production. All of our personnel have years of electromechanical experience and professional skills to provide the best transformers and design. At CHIN I, we continuously research and develop innovative and diversified power products. Furthermore, we insist on production with strict quality control to comply with the safety regulations of many countries, so that we can totally satisfy clients' demands with our internationally recognized brand of transformers.

經營理念：

服務、誠信、創新，共享的理念建立錦德變壓器專業品牌

秉持客戶至上服務第一，嚴選高品質的線材及材料，提供專業創新的技術，產品嚴格品質的堅持，使每一個裝配CHIN I 系列產品都能擁有卓越高品質表現。

Operational Philosophy:

Building a professional brand name with quality service, sincerely, Innovation and sharing
Persisting in taking customer service as the priority, by selecting high quality wire materials
Providing professional innovative technical products with strict quality control
Enabling every product from CHIN-I to be capable of excellent performance

承製產品項目：

- ▶ 電源變壓器
- ▶ 單相三變壓器
- ▶ 油浸式變壓器
- ▶ 模塊式變壓器
- ▶ 自動交流穩壓器
- ▶ 電容器用串聯電抗器
- ▶ 交流變頻用電抗器
- ▶ 直流變頻器用電抗器
- ▶ 啓動電抗器
- ▶ 補償器
- ▶ 高頻變壓器
- ▶ 環型變壓器
- ▶ 特殊變壓器
- ▶ 比流器
- ▶ 電感線圈
- ▶ 各式專業線圈加工
- ▶ UPS不斷電系統

Products:

- Power transformer
- Single/Three phase transformer
- Oil immersed transformer
- Cast transformer
- Automatic AC stabilizer
- Serial reactor for capacitor
- AC inverted reactor
- DC inverted reactor
- Starting reactor
- Compensator
- High frequency transformer
- Ring transformer
- Special transformer
- Current transformer
- Toroidal coil
- Various specific coil processing
- UPS

本公司產品特點：

- 堅固耐用使用年限長
- 超足容量，負載能力強
- 特性優良
- 安全性極佳
- 交貨迅速
- 價格合理

Product Features:

1. Durability with long usage lifetime
2. Ultra capacity with strong loading capability
3. Excellent properties
4. Extreme safety
5. Rapid delivery
6. Reasonable prices
